Volume 19	September 2015

FALL 2015 INDUSTRY UPDATE.......

CHANGES @ AES ARE COMING ....

Unless you have been excessively 'napping' -you have probably noticed an increased industry presence over the last 2 years by the Dept. of Homeland Security (DHS), and specifically the Customs & Border Patrol (CBP).

Now, there is an "agreement" between U.S. Census & CBP that current AES submission info that is handled by AES Direct will be decommissioned in 2016.

Instead of Census maintaining the AES Direct as presently done - AES info will go to the CBP maintained ACE system.

Presently, the AES Direct info- Oasis AES-EDI - via x12 EDI & vpn data is moved to ACE from US Census, but CBP no longer feels that Census needs to be involved.

Melco Group has maintained contact over the years with the company that designed the original EDI schema for Census. They have been selected by CBP to assist in the transition of AES data to a CBP-centric ACE system.

Our 'inside' sources at this company say they still have not yet received instructions from CBP as to how they may want to differentiate current EDI messaging, but they 'think' CBP will continue to permit x12 messages but with a few line item modifications. This translates into 'good news' for users of the Oasis AES-EDI module.

There was supposed to be a 'pilot' program set up this summer to test new ACE methodology via AES Direct (such as PC Link), but this is not yet implemented as of this writing.

Similarly there is a plan for another pilot program to commence in Fall 2015 to determine x12 or other current edi submission to ACE outside

Table of Contents

Census overview but further delays can probably be expected.

OASIS AES

If your OASIS site processes SED information manually and are interested in learning more about our AES – SED module http://www.oasis-web.net/UK/AES%20_%20AesVPN%20Electronic%20SED%20Filing.html follow this link for further information and short demo / tutorial.

ACE PROGRAMMING INFORMATION RELEASES

In January 2015 we subscribed to the U.S. Customs and Border Protection New ACE Programming information releases in order to have a handle on the various guidelines and upcoming changes. We have to date received over 200+ email releases some of which contain *links to external sites detailing further information dealing with Federal Registar notices, Food & Drug administration, Consumer CPSC Message Set Notices, Commercial Environment's (ACE) Export Manifest capability, System Network delays...* to be sure a Total Information overload!.

EXPORT MANIFEST VIA XML

Melco Group has recently developed a contact at the ACE Business Office who is helping us understand the project scope & timelines associated with implementation of an electronic Export Manifest via the XML protocol.

As of early August there were **NO vendors, Forwarders or Carriers** selected to TEST construction of export manifest data via XML to CBP.

While basic guidelines for XML formatting have been outlined by CBP, the actual linkage between software & CBP has not yet been addressed. At this time it is our understanding

there has been **NO DEADLINE** established for accomplishing implementation.

Oasis-web.net

WHO: Melco Group will be releasing Oasis-web.net by the end of the current year

WHAT: DON'T MISS A CHANCE TO ENHANCE CLIENT SERVICE

You have the confidence in knowing that your clients/agents are receiving automatic email notification at each stage of shipment movement via the OASIS Tracking Button.

OASIS-WEB Tracking Update

activeupdate@melcogroup.com (activeupda...   Add contact   8/26/2015 11:06 AM

To: MelcoIntl/ Support;

Tracking has been updated for the following Shipment
Reference Number 0033473   BL/AWB Number 057-92882834
Departing From Miami Int'l Airport, To Beijing, China Final Destination CHINA
Pieces 1 Weight LBS 7   Est Delivery Date
RECEIPT CONFIRMED - 06/03/2014
WR #10527
BOOKING/ALERT SENT - 06/09/2014
BOOKING NO.: 057-92882834
FLT. #MP6911/12-JUNE
MIAMI-TO-AMSTERDAM
FLT. #KL0897/15-JUNE
AMSTERDAM-TO-PEK
DEPARTURE CONFIRMED - 06/13/2014
AWB 3057-92882834
FLT. #MP7313/13-JUNE
MIAMI-TO-AMSTERDAM
FLT. #KL897/14-JUNE @ 18:13
AMSTERDAM-TO-BEIJING, CHINA
ARRIVAL CONFIRMED - 06/14/2014
BEIJING, CHINA
OUT/READY FOR DELIVERY - 08/26/2015
8/26/2015 11:06AM MELCO GROUP Truck left this morning

You may access this tracking information via OASIS-WEB at
www.oasis-web.net

MONITOR:

Keep instant 'tabs' on vital shipment & Trade statistics from OASIS generated Data. Oasis.web Management has fingertip access to shipment data via 'management dashboard' options.
